

CleanIQ®
Intelligent Solutions

**MAKING
CLEANING
SIMPLE AND
COMPLIANT**

An innovative partner in cleaning and hygiene can change everything.

CleaniQ provide the support you need to maintain the highest standards for hygiene, health, safety and appearance. At the same time we lift the burden of compliance.

We do everything for you – it's what sets us apart. When it comes to janitorial, chemicals and cleaning machinery, our customised, intelligent solutions make it simple for you.

We take facility management seriously

We use the knowledge we've gained from years of industry experience to deliver customised, integrated services and solutions through innovative, individual methodology for every business.

Our expertise and products make cleaning simple and drive productivity, performance and sustainability.

We partner with you to benefit your operations

Our approach is to address key areas of concerns for your business by looking at your process and operations as a whole.

- Onsite audits and evaluations
- Service and installation of equipment and machinery
- Chemical cost in use
- Energy consumption and environment
- Injury and OH&S
- Assist with processes to minimise downtime and increase productivity
- Chemical compliance and safety training

We know chemicals

Efficiency

- Highly concentrated products and dispensing solutions
- Automatic dosage control.

Training

- Online training solutions, face-to-face training, chemical management plans

Compliance

- SDS folders, user charts, safety charts, wall charts, first aid and PPE

We get janitorial

Our aim is to educate our customers along the way with the latest techniques and equipment.

Onsite auditing allows us to observe processes and practices to tailor a unique solution to each business.

Partnering with industry leading brands we use simple techniques through to advance technology to achieve effective results.

We love washrooms and hygiene

Washrooms and hygiene are important in any business and reflect the professionalism of your business to customers, staff and visitors.

We have a range of sustainable washroom solutions designed to manage dosage to minimise wastage and cost-in-use.

They include:

- Hand towel and dispensers
- Hand sanitisers and dispensers
- Hand soap and dispensers
- Toilet paper and dispensers

We understand machinery

We do more than supply machinery. We understand the importance of the operational side of your business and innovate to make it as efficient as possible.

Our onsite workshop services commercial cleaning machines and has spare part inventories to keep downtime to a minimum.

Additionally our service staff are licensed electricians qualified to tag and test all equipment.

The benefits of incorporating cleaning machinery

- Faster dry times enhance public safety and reduces the risk of incidents and injury
- Sustainability through reduced water consumption
- Efficient cleaning - equipment has the power to remove grime, grease and dirt that is traditionally hard to move, noticeably better results
- Ease of use and reduced worker fatigue thanks to easy-to-navigate consoles
